Old Grade From Milford-May Be a Fight For the Grade-Three Factions After the Control of the Union Pacific-Latest by Wire-Railway Notes.

In the return of W. S. ### THE ROUTE.

This is to be accomplished by utilizing 115 miles of grade now extending from Milford southwest toward the Meadow Valley wash. The road will then be pushed on toward Ploche, Nev., but some 30 miles below it, passing through Builionville and connecting with a branch of the Atlantic & Pacific at Vanderbilt, Nev. The A. & P. branch runs southwest to Goff, or Blake, as it is now known. Here the P. branch runs southwest to Goff, or Blake, as it is now known. Here the main line of the Atlantic & Pacific is encountered, proceeding directly west to Mojave station on the Southern Pa-cific, 100 miles northwest of Los An-geles. The distance from the end of the present grade 115 miles southwest of Milford to Vanderbilt would not be boiled down to the mere proposition of building 100 miles of grade and laying 200 miles of track. The old Union Pa-cific grade already constructed in-200 miles of track. The old Union Pa-cific grade already constructed in-cludes a large piece of tunnel, all of which construction is in good order. Before the old system became so hope-lessly embarrassed, over ten miles of track had been laid out into the desert from Milford, but these rails were af-terward torn up and transferred to other portions of the line.

THE THREE FACTIONS.

Mr. Godbe says there are three dis-tinct factions after the old system, and the contingencies which must follow the success of either one of the tri-angular bidders are variable at some points, but all resolve themselves into

one course of action so far as the Cal-ifornia extension is concerned.

The factions are, first, the present bondholders of the Union Pacific sys-tem, who are the same men interested in the reorganization of the Short Line. They want to purchase the road for \$45,000,000, after which the plan will be to again consolidate the Short Line and the old system and immediately begin the extension over the old grade into His,000,000, after which the plan will be to again consolidate the Short Line and the old system and immediately begin the extension over the old grade into Los Angeles, a statement confirming in every particular the predictions which have appeared in The Herald from time to time since the Short Line sale.

Second, the Vanderbilt syndicate, which interested persons in New York told Mr. Godbe, was willing and ready to purchase the old system for \$50,000.000 or \$60,000,000. In the event that ine government determines to sell cut its white elephant at a lump price, without agreeing to defer payment on the instalment plan, the Vanderbilts will be confronted by an independent Oregon Short, Line block.

His in a statement of the University of Pennslyvania, from which has a mere year began the practice of his profession in the city of his nativity. Mr. Murphy came to Salt Lake in 1888. In August, 1890, he was elected county attorney of Salt Lake county, and held the position until Jan. I. 1895. At the close of his term he formed a law partnership with J. G. Sutherland, which continued until last summer.

A very pleasant affair was that given by the Jefferson club at the Eighteenth ward hall last evening. The interior was tastefully decorated with bunting and potted plants, the musicians being hidden in a grove of tropleal green. Among those present were Misses J. Ityine, E. Rowe, M. James, M. Glade, Pringle, M. Jonassen, E. Jonassen, Lucy Latimer, Toronto, Dot Naisbet, Lax summer.

As a member of the bar Mr. Murphy was held in the highest esteem and those able to judge of his professional qualities predicted for him a brilliant proposal Wilford Woodruff ...... President a lump price, without agreeing to defer a immp price, without agreeing to defer payment on the instalment plan, the Vanderbilts will be confronted by an independent Oregon Short Line blocking its great trans-continental line to the coast, but this emergency has been anticipated very cleverly. A pool has been arranged with the Rio Grande system and for that matter was entirely completed two years ago. Chairman Coppell, of the Rio Grande directorate, by the way, is one of the Vanderbilt purchasing committee. The Vanderbilt purchasing committee. payment on the instalment plan, the Vanderbilts will be confronted by an independent Oregon Short Line blocking its great trans-continental line to the coast, but this emergency has been anticipated very cleverly. A pool has been arranged with the Rio Grande system and for that matter was entirely completed two years ago. Chairman Coppell, of the Rio Grande directorate, by the way, is one of the Vanderbilt purchasing committee. The consolidation of the Union Pacific and Rio Grande would follow as a natural sequence. From Grand Junction, the terminal of the Rio Grande system, a line would be constructed across the southern portion of Utah to Milford, where connections would be made with the old Union Pacific grade, for the New southern portion of Utah to Milford, where connections would be made with the old Union Pacific grade, for the New York Central-Northwestern syndicate would make a contract with the Short Line for possession of the grade on the assumption that it was constructed out of the funds of the Utah Southern was absorbed by the original line.

WHO WILL GET THE GRADE. At this point would arise a desperate fight, for the seizure of the 115 miles of grade would shut out the Short Line grate would shut out the Short Line extension and place that system at the mercy of the other combine. The Rio Grande possesses every claim for ab-sorption into such a great scheme. Its line from Denver to Salt Lake is the straightest piece of road between these two polats when its connection with the Western is con-sidered. The Western would not necessarily figure in the deal, but It is quite possible that some portion of its trackage facilities would be used.

in the foregoing case, Salt Lake City would not be touched by the proposed Vanderbilt connecting link. The third syndicate mentioned by The third syndicate incutioned by Mr. Godbe is that composed of St. Louis and some Salt Lake capitalists including President George Q. Cannon. The last combine is not so strong as the others, in Mr. Godbe's opinion, for the reason that it is formed only for the purpose of lending impetus to the building of any line of rail between Salt Lake and San Francisco. The third syndicate is in name only a syndicate and will be ready to advance

any interests at its command to the successful bidder for the Union Pacific. If the present bondholders of the Union Pacific system—the same individuals now controlling the Short Lineget the Union Pacific for \$43,900,000 at an instalment bargain, then Mr. Godbe does not believe that Salt Lake City will have any Short Line headquarters for the very simple renson that an immediate consolidation of the old interests will follow and the chief business of the whole system remain where it has always been, at Omaha. where it has always been, at Omaha. A general manager, general traffic manager will probably be left in this field, but beyond these officers nothing more. Delay in Short Line matters is made necessary until the Union Pacific foreclosure is made. At any rate, if a sale at public auction occurs, it is not likely that the dull proceedings which characterized the Short Line sale will be repeated.

VANDERBILTS COMING emphasized the very triffing distance that separated the two objective points. Mr. Godbe is heavily interested in Bullionville and other southern Netwards points and on this account he took the most lively interest in ascertaining the foregoing accounts.

THE SHERIFF'S OFFICE. COUNTY COMMISSIONERS GIVE MR. LEWIS A WHIRL.

Notwithstanding the Reduction in the Force and the Heavy Cut in Salaries, They Think the Office Costs Too Much.

It was the sheriff's turn yesterday to walk the carpet before the county commissioners. Unfortunately, or fortunately, as the case may be, Mr. Lewis was indisposed and could not appear in answer to the board's summons, but Chief Clerk Eldredge put in an appearance instead and was told something about the policy of the commissioners relating to all county officers, and the sheriff's office in par

being cited to appear yesterday. About the first thing that came up when the board met was the following commu-nication, which was received from

Mrs. Frank Beattle. Mrs. James Moyle.

Owing to the heavy rainfall, the party was a little late and several extras were danced ere the grand march, which was led by Governor Wells.

This over the era of sociability set in and the dance was continued until a late hour.

It was, as stated, in every way a success and every one present had an enjoyable time.

A very pleasant affair was that given by the Jefferson club at the Eighteenth ward hall last evening. The interior was tautefully decorated with bunting and potted plants, the musicians being hidden in a grove of tropical green. Gisen's orchestra furnished the music.

Among those present were Misses J.

storm which set in last evening had the effect of thinning the attendance at the theater, and in place of the big audience which Katle Putnam has been accustomed to draw in this city there was only a fair turnout; that it was as good as it was must be taken as a decided tribute to her popularity in Salt Lake. "The Old Lime Kiln" has been seen here before, and its lively comedy scenes, with the very well worked up and exciting sensational effect of the rescue from a burning kiln, went with the same old signs of approval. Miss Putnam was, of course, the main life of the piece, and her well known abilities are now doing. But I want to speak particularly about the work that it was a very important place and a high salaried man was necessary. I have looked into the matter and believe we could get a man for \$40 per month to do the very same work. I go down into the sheriff's office and almost any of paralysis, Mrs. Mary White Elvers, and her well known abilities are too many high salaried officers.
